

Steps to address duplicate kit issues:

1. Choose **which** Kit ID you like best (have one kit represent one body in the match lists)
2. Click to EDIT or DELETE your DNA resource profiles

[EDIT or DELETE](#) your DNA resource profiles.

3. Click/Select the radio button in front of the one you choose to delete (or mark as research only)

Select one kit, and then click either the 'Delete' or 'Edit' button. It may take up to a minute for the delete process to complete.

Welcome

Your raw DNA kits										
Kit Nbr	Donor	Public?	Email Public?	Sex	SNP Sharing Pool?	MT Haplo	Y Haplo	Date uploaded	Date Batch Processed	Select
A07	Sproed (D Brother Sproed)	Y	Y	M	Y	H2a1d	R-M269	2014-01-11 00:33:20	2014-02-22 05:20:49	<input checked="" type="radio"/> SELECT

If you want to only have one kit choose DELETE and you will have only one kit. Easy enough. 😊

If you want to have the second kit for your research availability, then select EDIT

4. Select the radio button in front of research and then SAVE CHANGES.

Edit Kit Profile

Kit Number: A07

Name:

Alias:

Email:
WARNING: If you change the email address, it will transfer management of this kit to that log-in account.

Sex: Male Female

Mitochondrial-haplogroup:

Y-haplogroup:

Public / Private / Research:
(Research kits can be used with any GEDmatch utility, but they will not be shown in comparison results for other kits. We do NOT encourage the use of the 'Research' option with normal kit uploads, since it is not consistent with the free exchange of genealogy information.)

Public Private Research

Would you like this kit to be part of the SNP sharing pool? **WARNING: Setting this option to 'Y' may expose health related information to other GEDmatch users.**

Yes No

Click here to save changes:

Now you can still use it for your own research but it won't appear twice in your matches lists.
